 Services provided through a professional corporation

Michael has extensive experience in all aspects of health law.

He has significant expertise in the representation of physicians, dentists, nurses and other health care practitioners in regulatory matters including complaints, discipline, quality assurance, fitness to practice and registration issues. He has also represented numerous physicians in hospital privilege disputes as well as in medical malpractice actions. He also advises corporations and institutions with respect to health law issues. Michael is the co-author of *The Law of Acute Care Medicine* published by Thomson Reuters which addresses the complexities that arise when medicine, law, and ethics intersect in the treatment and caring for acutely ill patients.

Michael is also an experienced medical malpractice litigator. Having defended physicians in medical malpractice cases for more than 10 years and having represented plaintiffs for 15 years, he is well placed to advocate on behalf of parties involved in malpractice disputes.

In addition to his health law practice, Michael also handles civil litigation matters including personal injury, high tech litigation, general commercial litigation, product liability, wrongful dismissal and human rights.

Michael has served as lead counsel in matters before all levels of court in Ontario, the Federal Court and Federal Court of Appeal, and various tribunals including the Discipline Committee of the College of Physicians and Surgeons, Royal College of Dental Surgeons of Ontario, College of Chiropractors, College of Audiologists and Speech Language Therapists, as well as the Health Professions Appeal and Review Board, Health Services Appeal and Review Board, Medical Advisory Committees and the Board of Governors of various hospitals. He has also represented numerous parties at Coroners Inquests.

Michael has chaired and spoken at numerous continuing education programs for lawyers as well as health care practitioners on issues relating to health law and medical malpractice.
